SDS Revision Date: 05/28/2015

1. Identification

1.1. Product identifier

Product Identity Titanium Roof Sealer

CODE 39154

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use See Technical Data Sheet.

Application Method See Technical Data Sheet.

1.3. Details of the supplier of the safety data sheet

Company Name Harris Paints Company

PO Box 364723

San Juan, P.R. 00936-4723

Emergency

CHEMTREC (USA) (800) 424-9300 Customer Service: Harris Paints Company 787-798-1005

2. Hazard(s) identification

2.1. Classification of the substance or mixture

Skin Irrit 2, H315 Skin Irritation and Eye Irritation

ORG Tox 3, H 317 Specific Target Organ Toxicity – Single Exposure (Skin irritation)

Carc. 1A;H350 May cause cancer.

Acute Tox, 5; H 333 May be harmful if inhaled

Inh Tox, 1; H 370 Causes damage to organs (single exposure)

Targ Org Tox, 1; H 372 Cause damage to organ through prolongeg or exposure (Inhalation.

lung)

Aquatic Env, 1; H410 Very Toxic to aquatic life (long-term)

2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

Danger

H350 May cause cancer.

SDS Revision Date: 05/28/2015

[Prevention]:

P201 Obtain special instructions before use.

P202 Do not handle until all safety precautions have been read and understood.

P273 Avoid release to the environment.

P260 Do not breath dust/fume/gas/mist/vapours/spray

P264 Wash.. Thoroughly after handling

P270 Do not eat, drink or smoke when using this product.

P273 Avoid Release to environment.

P281 Use personal protective equipment as required.

P314 Get medical advice/attention if you feel unwell.

[Response]:

P308+313 IF exposed or concerned: Get medical advice / attention.

P391 Collect spillage.

P304+P312: If INHALED: Call a Poison Center or doctor / physician if you feel unwell.

[Storage]:

P405 Store locked up.

[Disposal]:

P501 Dispose of contents / container in accordance with local / national regulations.

[Safety phrase]

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S51 Use only in well-ventilated area.

3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
Titanium dioxide CAS Number: 0013463-67-7	1.0 – 10.0	Not Classified	[1][2]
calcined china clay CAS Number: 0092704-41-1	5.0 – 30.0	Not Classified	[1]
2,2,4-trimethyl-1,3-pentanediol monoisobutyrate CAS Number: 0025265-77-4	0. 5 – 2.0	Not Classified	[1]
Quartz CAS Number: 0014808-60-7	1.0 -10.0	Acute Tox. 4;H332 STOT RE 2;H373 Carc. 1B;H350	[1][2]
ZINC CAS Number: 1314-13-2	1.0 - 10.0	Org Tox, 1; H370 Targ Tox, 1; H372 Aquatic Env, 1 ; H410	[1][2]
Glycol CAS Number": 57-55-6	0.5 – 1.0	Not classified	[1]

In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

^[1] Substance classified with a health or environmental hazard.

^[2] Substance with a workplace exposure limit.

^[3] PBT-substance or vPvB-substance.

^{*}The full texts of the phrases are shown in Section 16.

SDS Revision Date: 05/28/2015

4. First aid measures

4.1. Description of first aid measures

General In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

Inhalation Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give

artificial respiration. If unconscious place in the recovery position and obtain immediate

medical attention. Give nothing by mouth.

Eyes Make sure to remove any contact lenses from eyes before rinsing. Flush with large

quantities of water for 15 minutes.

Skin Remove contaminated clothing. Wash skin thoroughly with soap and water or use a

recognized skin cleanser.

Ingestion Do not induce vomiting, can cause chemical pneumonitis and pulmonary edema. Get

medical attention immediately. provide fresh air. warmth and rest, preferably in comfortable

upright sitting position.

4.2. Most important symptoms and effects, both acute and delayed

Overview No specific symptom data available.

Possible cancer hazard. Contains an ingredient which may cause cancer based on animal

data (See Section 3 and Section 15 for each ingredient). Risk of cancer depends on

duration and level of exposure. See section 2 for further details.

5. Fire-fighting measures

5.1. Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO₂, powder, water spray.

Do not use: water jet.

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: May cause hazardous fumes when heated to decomposition. Fumes may contain carbon monoxide, carbon dioxide, oxides of nitrogen and oxides of metals listed in section II. Fumes may also contain oxides of nitrogen.

5.3. Advice for fire-fighters

Respiratory equipment should be worn to avoid inhalation of concentrated vapors. Water should not be used except as fog to keep nearby containers cool. Cool containers exposed to flames with water until well after the fire is out. Protective equipment for fire-fighters.

Due to pressure build-up, closed containers exposed to extreme heat may explode. During emergency conditions, over-exposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

None

ERG Guide No. ----

SDS Revision Date: 05/28/2015

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

RESPIRATORY PROTECTION

When spraying this material use a NIOSH approved cartridge respirator or gasmask suitable to keep airborne mists and vapor concentration below threshold limit values. When using in poorly ventilated and confined spaces, use a fresh air supplying respirator or a self-contained breathing apparatus.

Put on appropriate personal protective equipment (see section 8).

6.2. Environmental precautions

Do not allow spills to enter drains or waterways.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up

Eliminate ignition sources, provide good ventilation, dike spill area and add absorbent earth or sawdust to spilled liquid. Thoroughly wet with water and mix.

Collect adsorbent/water/spilled liquid mixture into metal containers and add enough water to cover. Consult local state and federal hazardous regulation before disposing into approved hazardous wasted landfills. Obey relevant law.

7. Handling and storage

7.1. Precautions for safe handling

Use non-sparking utensils when handling this material.

Ground all equipment when handling flammable solvent borne materials; smoking is strictly prohibited in areas where this materials are used. Use impermeable aprons and protective clothing whenever to prevent skin contact. The use of head caps whenever possible is strongly recommended.

Keep away from heat, sparks and open flame. Avoid spilling, skin and eye contact. Avoid inhalation of vapor's and spray mists. Do not eat, drink or smoke when using the product. Good personal hygiene is necessary. Wash hands and contaminated areas with water and soap before leaving the work site.

See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities

Handle containers carefully to prevent damage and spillage.

Incompatible materials: Alkaline materials, strong acids and oxidizing materials.

Avoid hot metal surface. Keep away from excessive heat and open flames. KEEP OUT OF REACH OF CHILDREN.

Store in closed original container at temperatures between 5°C and 25°C. Keep away from heat, sparks and open flame. Protect from freezing and direct sunlight. Keep containers tightly closed. Keep upright. Store separated from: Oxidizing material. Alkalis. Acids. Ensure that waste and contaminated materials are collected and removed from the work area as soon as possible in a suitably labeled container.

See section 2 for further details. - [Storage]:

7.3. Specific end use(s)

SDS Revision Date: 05/28/2015

No data available.

8.2. Exposure controls

Respiratory When spraying this material use a NIOSH approved cartridge respirator or gasmask

suitable to keep airborne mists and vapor concentration below threshold limit values. When using in poorly ventilated and confined spaces, use a fresh air supplying respirator or a

self-contained breathing apparatus.

Eyes Use chemical safety glasses, goggles, and face shields for eye protection.

Skin Use impermeable aprons and protective clothing whenever possible to prevent skin

contact. The use of head caps whenever possible is strongly recommended. Chemical

resistant gloves.

Engineering Controls General mechanical ventilation or local exhaust should be suitable to keep vapor

concentrations below TLV. Ventilation equipment must be explosion proof.

Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled

9.2. Other information

No other relevant information.

10. Stability and reactivity

10.1. Reactivity

Hazardous Polymerization will not occur.

10.2. Chemical stability

Stable under normal circumstances.

10.3. Possibility of hazardous reactions

No data available.

10.4. Conditions to avoid

Excessive heat, poor ventilation, corrosive atmospheres, excessive aging.

10.5. Incompatible materials

Alkaline materials, strong acids and oxidizing materials.

10.6. Hazardous decomposition products

May cause hazardous fumes when heated to decomposition. Fumes may contain carbon monoxide, carbon dioxide, oxides of nitrogen and oxides of metals listed in section II. Fumes may also contain oxides of nitrogen.
